

ExamplePOC

Overview

ExamplePOC is a minimal .NET 8 console application that prompts the user for text input and prints it to the console. If no input is provided, it defaults to printing **HELLO WORLD**.

Requirements

.NET 8 SDK or later

Getting Started

Clone the repository and navigate to the project directory:

```
git clone https://github.com/MonkeyandKeyboard/ExamplePOC.git
cd ExamplePOC
```

Build

```
dotnet build
```

Run

```
dotnet run
```

You will be prompted to enter text. Press Enter with no input to output the default message.
